

TO THE DEMOCRATIC VOTERS OF HOLT COUNTY:

I am a candidate for the Democratic nomination for the office of County Collector at the August 4th Primary.

I feel that I am entitled to the nomination again, as it has always been the custom to give a Democratic office holder a second term, and I believe the Democrats of Holt County will look at it in this light.

I took the nomination the last time when no other Democrat in the county wanted it or would take it, and when there was hardly a chance of being elected. I made a hard fight for election and was the only Democrat who was elected.

After being elected, I was compelled to sell my store at Forest City, which I did at a great sacrifice, and together with the large office expenses and making the campaign, I have not been able to make so very much out of the office, and I know that no farmer, business or professional man can afford to take an office for one term.

I took the office in 1911, and in that year I collected more taxes than had ever before been collected in one year by any man in this office. Also in 1912, I broke my 1911 record, and again in 1913 I broke the 1912 record. I am not saying this in a boasting way, but I do say that it is a matter of importance to the tax payers of this county.

There are four Democrats seeking the nomination for this office this year, and while they are all excellent Democrats, I think I am entitled to it again and trust you will give me your vote.

Very Respectfully,

HOWARD S. TEARE.

Getting Interesting.

The piano contest now on at the Fitts-Bunker store is growing more interesting as the days come and go, and there were several up to Tuesday night that were neck and neck in the race, the Lincoln Sunday school being in the lead.

The piano is a high-class \$350 instrument, and goes free to the lodge, church, school, society or individual having the largest number of votes, Saturday, August 3—100 votes being given for each 50-cent purchase. Decide who you are going to support, and vote them every day. The standing of the various contestants at the close of business on Tuesday, of this week, was as follows:

At the Primaries, next Tuesday, August 4th, vote for W. R. Swope for Representative.

The Round Up.

As we are sure to have a Democrat to represent this Senatorial district in the next legislature, we hope the prize may fall to our fellow citizen, R. B. Bridgeman, whom we have known from his schooldays, and one whose Democracy has never been questioned, and one who we believe is every way big enough for the job. The coming legislature will likely revise the practice code for our courts, and Mr. Bridgeman being a lawyer, he will be in the right place at the right time to take an active part in this legislation, knowing as he does the need of this legislation. He is a young man—in the prime of a splendidly vigorous and active life, who has enjoyed a good legal practice, and we believe will make us a good Senator. We don't like his politics a little bit, but under Democracy's decree in this State, we just have to take our medicine, and we take it, and gag.

As the district is overwhelmingly Democratic, and as the Craig Leader, the only Democratic paper in the county, has heartily endorsed his candidacy, THE SENTINEL as the only Republican paper in the county, also endorses his effort to be the Senator for this district, and trusts that the Democracy of the district, at their primaries, next Tuesday, may find their way clear to give him their hearty support, and that he may be their choice by a large and flattering majority.

Married in Seattle.

It is with surprise, pleasure and regret that we chronicle the marriage of one of our most charming and accomplished young ladies, Miss Madge Boyd, formerly of near Oregon, and a daughter of Mrs. Omer Williams, and who, with her sister, Miss Lena, were out there on a visit with their aunt, Mrs. Phil. Hoffmann. She was united in marriage to Mr. George Baughman, Wednesday, July 15, 1914, the marriage being solemnized at the residence of her aunt, only the immediate relatives and friends being present. The groom, we are informed, is engaged in business in Seattle, and has an interest in one of the largest music houses of that city, and is recognized as one of Seattle's progressive and enterprising young business men. And we all know the bride for one of our most lovable, accomplished and popular young ladies, who by her many graces and sweet disposition has endeared herself to all of us. As we said, we were surprised, also with pleasure and regret—regret, that she will be so far away from us—surprised, because she never told any of us, and lastly, pleasure that she has married a young man, with many noble qualities, and in wishing Madge and her husband many years of unalloyed happiness and prosperity, we know that she only voices the sentiment of the entire community.

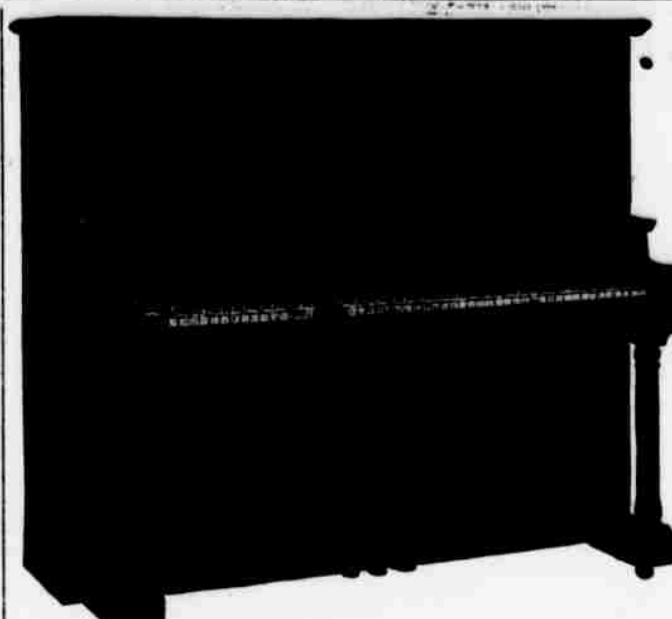

Clean Up.

Our business men and citizens generally are requested to clean up their premises, and along the business streets; put the trash into heaps, or old gunnysacks, and the Women's Union will see that it is hauled away. Do this for Oregon. The Union has made arrangements to have the grass along the sides of the streets mowed, and made more presentable. We are thankful that this organization has sufficient civic pride to take the matter in hand, and they never do a thing that is not always done right, and at the right time.

The city council is composed of business men who are too busy to look after these matters, and hence the Union feels that somebody should look after such matters, and they only ask the business men and citizens to get the trash about their places gathered into heaps, and if they will but do this, they, as an organization, will do the rest.

A New Firm.

New hardware firm in town. It has not been long since we announced that Andrew Burrier and James Ramsey had purchased the Robert Smith hardware stock in this city, and now the firm is Burrier & Schulte. Mr. Samuel Schulte having purchased Mr. Ramsey's interest. Saturday of last week Mr. Schulte is a hardware man of many year's experience, having been engaged in this business in Oregon for a number of years. He is well acquainted with the citizens of this community, and needs no introduction at our hands. We wish the new firm success, and hope that Jim Ramsey will now have time to get out and make a trade now and then, as this seems to suit him better than being confined to the house.

The Great Sale.

The great clearance sale of the Fitts-Bunker Mercantile Company, which began Saturday, July 25, to continue for 13 days, is the all absorbing subject among the people of the county, and discussed in every household.

Colonel O. L. Divers, of Kansas City, an experienced specialist in conducting special sales of this character, is in full charge, and seems to know the full alphabet from A to Z in the management of this character of business, and on taking charge took a carver of good dimensions and put deep into the heart of prices. He knows the importance and diplomacy of how to move the goods, and this he does by an active, keen conception of the business. He's a hustler; every action both mental and physical is of the hair-trigger quality, that impresses a fellow and tells him at once that the Colonel is well on to his job.

It is a \$25,000 stock that has to be disposed of, and the way the Colonel is moving it, is a caution. The firm has a reputation for handling clean, worthwhile merchandise, and it is being moved for the purpose of reducing the stock, and to give the purchaser the advantage of rare bargains that does not often come his way, and the company, with the aid of Colonel Divers, is surely sending it the way that the purchaser is the sole beneficiary.

Has Made a Success.

Charles M. Taylor, who left here before he attained his majority, is here on a visit with his mother and brother, James Taylor, of Nodaway township. It is now 12 years since Charles left here, and in that time he has done considerable traveling over this grand old earth,—has met with misfortune, and also has prospered. For several years he has been with the Cadillac motor car people, in different capacities, and for some time has had charge of the repair department in their different garages in the State of California.—In San Francisco, Los Angeles, Sacramento, and other cities in that State. He is an expert in his line, and from a losing proposition has put all of the garages in the State of California on a paying basis. He is now located at Sacramento,—is in full charge of the Cadillac's business there and is drawing a splendid salary.
